// PROFESSIONAL SUMMARY

Cybersecurity Researcher, OSINT Practitioner, and Bug Bounty Hunter with hands-on experience in banking **IT Security Operations** and active vulnerability research on **Intigriti** and **Bugcrowd**. Builds open-source offensive tooling (**redgun**, **Xploit47**, **ZER0CODE**, **CODA**, **ExploitNinja**) spanning web/API, cloud, Web3, mobile, and **AI/LLM security**. Bridges technical deep-dives and business impact across Blue Team and Red Team — threat hunting, CTI, penetration testing, DFIR, and security monitoring. Applies continuous-improvement and **CI/CD discipline** to security workflows, delivering intelligence-led, actionable findings.

// CORE COMPETENCIES

\$ SECURITY_OPS | DEFENSE

- SIEM / SOAR
- Threat Hunting
- DFIR
- Threat Intelligence
- MITRE ATT&CK
- IDS / IPS
- EDR / XDR
- Network Analysis
- Incident Response

\$ OFFENSIVE_SECURITY | RESEARCH

- Bug Bounty
- Penetration Testing
- Red Teaming
- Web / API Security
- Burp Suite
- OWASP Top 10
- Active Directory
- Cloud Red Team
- Phishing Ops
- OSINT / Dark Web
- Mobile Security
- AppSec / SAST

\$ AI_LLM | WEB3 | SPECIALIZED

- AI / LLM Security
- Prompt Injection
- AI Red Teaming
- MCP / AI Agents
- Web3 / Smart Contracts
- Smart Contract Audit
- Attack Path Planning
- Security Tooling

\$ ENGINEERING_STACK

- Python
- TypeScript / JS
- Node.js
- SQL / KQL
- Shell / CLI
- Linux & Windows
- HTML / CSS
- Java
- C++ / C#
- Secure SDLC
- ISO 27001 / 27701 / 42001

// WORK EXPERIENCE

Security Researcher

Intigriti (Bug Bounty Platform)

Aug 2025 – Present

- Perform penetration testing, security research, bug analysis, and exploit validation across multi-company application state and endpoints.
- Identify, validate, and report web application, API, and endpoint vulnerabilities with clear remediation guidance.
- Follow responsible disclosure practices and produce reproducible technical findings for program owners.

Security Researcher

Bugcrowd (Bug Bounty Platform)

Aug 2025 – Present

- Conduct continuous vulnerability research and security analysis across multi-company bug bounty targets.
- Analyze application state and attack surface; report actionable findings for remediation.
- Apply offensive security methodologies including recon, exploitation validation, and impact assessment.

IT Security Operations

PT Bank Syariah Indonesia Tbk

Feb 2021 – Dec 2025

- 24/7 SOC monitoring and alert triage using security monitoring tools; network maintenance and system health checks.
- Proactive threat hunting and cyber threat intelligence production with intelligence-led reporting.
- Penetration testing for security hardening; phishing analysis and malware analysis.
- Administered cloud security, IDS/IPS, and firewall issues; patch recommendations and system updates.
- OSINT investigations with structured collection methodology; digital vulnerability assessment.
- Dark-web monitoring under OpSec discipline using sock-puppet accounts for cybercrime observation.
- Research new threat attack vectors and cyber kill-chain patterns; collaborate across departments.

Financing Operations & IT Support Staff

PT Bank BNI Syariah

Jan 2020 – Feb 2021

- Maintained financing contracts (mortgage, multipurpose, SME) with data-quality and documentation controls.
- Operated branch server infrastructure including routing and intranet broadband.
- Coordinated with public notaries for financing guarantees; reporting to financial authorities.
- IT support ticketing and operational resolution across branch systems.

IT Support Assistant

PT Bank Negara Indonesia (Persero) Tbk

Jan 2017 – Dec 2019

- Desktop, network, and Microsoft 365 troubleshooting; software network-traffic analysis.
- Helpdesk administration: complaint handling, ticket lifecycle, and remediation reporting.
- Cloud and firewall issue resolution; system health checks and software patch updates.
- Cross-department coordination for incident and request fulfillment.

// PORTFOLIO

Security Research Portfolio · github.com/aloc999

Open security research and methodology: **Bug-Hunting-Methodology** (36 vuln classes, payloads, bypasses), **PENTESTING-TECHNIQUES** (web · network · AD · cloud path), and **ExploitNinja** (147 pentest skills — bug bounty, web3, mobile, cloud, OSINT, AI/LLM security). Focus on offensive security, OSINT, vulnerability analysis, and reproducible research artifacts.

Software Engineering Portfolio · github.com/aloc999

Security engineering products: **redgun** (CLI web auditor — black/white-box, ~120 modules, AI attack chains), **Xploit47** (AI-powered pentest reasoning MCP — Beam Search + MCTS attack-path planning), **ZER0CODE** (AI red-team coding agent for offensive workflows), and **CODA** (smart-contract audit arsenal — 26 tools, static analysis to formal verification). Full-stack craft via Full Stack Open.

// COURSES & CERTIFICATIONS

[RED_TEAM · OFFENSIVE_SECURITY]

Certified Red Team Specialist (CRTS) CyberWarfare Labs · Lateral movement, AD, adversary simulation, CI/CD	Apr 2026	Certified Offensive Phishing Operator CyberWarfare Labs · BITB, device-code phishing, illicit consent, MFA	Apr 2026
Multi-Cloud Red Team Analyst CyberWarfare Labs · AWS · GCP · Azure misconfigurations	Mar 2026	Web Red Team Analyst CyberWarfare Labs · Modern web vulnerability assessment	Mar 2026
Cybernetics Pro Labs Hack The Box · AD, phishing, lateral movement, privilege escalation	Jan 2026	Certified Red Team Analyst (CRTA) CyberWarfare Labs · AD pentest, network/Windows, adversary sim	Dec 2025
Certified API Red Team Analyst CyberWarfare Labs · WebApp, API, AWS CloudNative security	Dec 2025	Certified Associate Penetration Tester Hackviser · AD, VAPT, AppSec, network security	Dec 2025
Certified Red Team Operations Management Red Team Leaders · Red Team security operations management	Dec 2025		

[BLUE_TEAM · CTI · DFIR · OSINT]

CSI Linux Certified Investigator Academy CSI Linux · Real threat intelligence investigations	Jan 2026	Certified Threat Intelligence & Governance Analyst Red Team Leaders · CTI on case scenarios	Jan 2026
Certificate of Competence — Chinese OSINT Hacktoria · China-focused OSINT investigations	Jan 2026	DFIR Foundations & Techniques Blue Cape Security · SIEM/SOAR, Splunk, Autopsy, Win forensics	Jan 2026
Hands-On KQL for Security Analysis Blu Raven Academy · KQL-based security analysis	Jan 2026	ICS CyberSecurity Vulnerabilities (21OW-07) U.S. Department of Homeland Security · ICS vulnerabilities	Jan 2026
Operation Gambler OSINT CTF UK OSINT Community · Real-world OSINT investigations	Jan 2026	Cyber Threat Intelligence Analyst arcX · CTI and APT threat analysis	Dec 2025
Blue Team Junior Analyst Security Blue Team · OSINT, DFIR, dark web, threat hunting	Dec 2025	Advanced OSINT Mastery Red Team Leaders · SOCMINT, GEOINT, dark web, OPSEC	Mar 2026
Maltego for Cybercrime Maltego · Detecting & tracking criminal activity	2026		

[GOVERNANCE · AI · PRIVACY · FOUNDATIONS]

ISO/IEC 42001:2023 Lead Auditor AI Management System (AIMS) · Conformity & non-conformity auditing	Jul 2026	ISO/IEC 27701:2025 Lead Auditor Privacy Information Management System (PIMS) · Audit capability	Jul 2026
ISO/IEC 27001:2022 Lead Auditor MasterMind Assurance · ISMS conformity & non-conformity auditing	Dec 2025	CSCSO Certification ICTTF · SME cyber risk, NIST, DORA, GDPR	Dec 2025
CRPO Certification ICTTF · Ransomware protection framework	Dec 2025	Google Cybersecurity Professional Certificate Google · Python, Linux, SQL, SIEM, IDS/IPS, EDR/XDR	Dec 2025
APU PPT — AML & Counter-Terrorism Financing LPPI Indonesia · AML / CFT regime	Oct 2022	Lean Six Sigma White Belt The Council for Six Sigma Certification	Dec 2025
